BEWARE OF THE COUNTERFEITS .- There is an alarming number of counterfeit bills, as well as a large quantity of spurious silver pieces, in circulation throughout the country. The publie should beware of the bills purporting to be issued by the following banks, which have been selected by the counterfeiters as the victims of their unlawful designs. Some of the counterfeit bills are so fively executed that an expert only can detect the difference between the bogus and the genuice: \$5 bills on the First National Bank of Chicago, Ill. \$5 bills on the First National Bank of Paxton, Iil. \$5 bills on the First National Bank of Cantor, 1il. \$5 bills on the First National Bank of Peoria, I !. \$5 bills on the First National Bank of Aurora. Ill. \$5 bills on the First National Bank of Galena, Ill. \$5 bills on the Hampden National Bank of Westfield, Mass. \$5 bills on the Mechanics' National Buck of New Bedford, Mass. \$5 bills on the Traders' National Bank of Chicago, Ill. \$5 bills on the First National Bank of Louisville, Ky. \$10 tills on the National State Bank of Terre Haute, Ind. \$10 bills on the Farmers' and Manufacturers' Bank, of Poughkeepsie, N. Y. \$20 bills on the National Bank of Utica, N. Y. There is no such bank in existence as the First National Bank of Galena, Ill. Necessarily, therefore, all b lis bearing the stamp of such bank are spurious.

AMERICAN BEEF FOR EUROPE. - An interesting experiment is being made at the abattoir on the Hackensack River, by Dr. J. J. Craven, in order to test the feasibility of transporting beef, without injury, to the European markets. A wooden structure rendered air tight has been erected, corresponding to the 'tween deck of a steamer, with beams and hooks running longitudinally. Here will be hung up the dead animals in rows as closely together as in any of our abattoirs. The temperature of the compartment is kept as low as 22 degrees by means of pipes. through which water is forced by a small pump from a tank containing ice and salt. The salt is held in solution in sufficient quantity to prevent the water from freezing in the pipes. The experiment was commenced five days ago, and it is to be continued for eighteen days. Should the test prove successful a most important problem will have been solved. It will be recollect ed that one of the British steamers plying to this port carried to Liverpool about two months ago a large quantity of beef, and when placed in the market it had not deteriorated. The Abattoir and Stock Yard Company is prepared to invest sufficient capital to charter a steamer which will carry an immense supply of meat to foreign markets. They only await the success of the experiment now in progress.—N. Y. Herald.

FIGURING ON NOVEMBER.-The New York Tribune publishes an estimate of the probable result of the presidential election in November. It gives to the democrats all the Southern States except South Carolina, together with California, Connecticut, Nevada and Oregon, with 149 electoral votes. New York, Indiana, New Jersey and Colorado, with 62 votes, are put down as doubtful states. The remaining northern and western states, together with South Carolina, with 158 votes, are put down as certainly republican. The whole number of electoral votes is 369, and a majority is 185, so from the deubtful states, according to the Tribune's arithmetic, the democrats wou'd have to draw 36, whilst 27 would supply the needs of the republicans. The Tribune remarks that these "figures show that the nominations made by the republicans at Cincinnati have by no means assured them a victory in November, however much they may have simplified the issues of the campaign and contributed to the unity and encouragement of the party."

AN ELEMENT OF SUCCESS. - A writer in the New York Herald says: The democrats ought to nominate either Tilden or Thurman or some one whose name ends in an N, or at least has an N in it. Look over the list of Presidents (clected such by the people) and sec how many names end in that letter and how few are without it altogether. This is the real reason why neither Seymour nor Greeley could defeat Grant, and for the same reason the democrats will have by far the better chance of winning now if they will only study the lessons of experience. Either Tilden or Thurman would be pretty sure to defeat Hayes, and I think Cooper, too! And then there's ex Governor Hoffman, who might put two N's at the end of his name! How is it that he is never mentioned in this connection? He would be sure of success (with the double N,) and would make an excellent President.

A Hoax.-In consequence of an advertise meut in one of the morning papers, calling for 3,000 men to go to the Black Hills, there assembled yesterday on the corner of Greene and Fourth streets (the place designated in the advertisement,) about 500 men and boys. At 9 o'clock the crowd had taken possession of a lagerbeer saloon on the southwest corner of the intersection of the streets named, and as they heard nothing in reference to the proposition advertised a row seemed imminent. Nothing more convenient at haud, the enraged men singled out the proprietor of the saloon as the object of their vengeance. The timely arrival of the police prevented a disturbance and dispersed the crowd .- New York Herald.

Last Saturday afternoon sixty three mem bers of the Boston Light Infantry, under com mand of Captain Noys, and a number of the Old Guard of New York, led by Maj. McLean, left Pier 28, North River, for Charleston, S. C. The men formed in the armory at 3 p. m., and marched to the steamship, which sailed at 5 o'clock. While in the South the two corps will participate in the Centennial anniversary of the battle of Fort Sullivan, and will frater nize with the Washington Light Infantry of
